### Framed Real Estate Signs (FRES)

All of the items offered in the Couch and Philippi Commercial Real Estate Sign System are produced in accordance to the CBRE corporate standards. This sign system was designed to give you maximum flexibility as well as longevity in the delivery of your Branding message. In addition, all of our products are produced on environmentally friendly recycled materials that can and should be recycled after their effective lifecycle has been completed.

## WINDOW POSTER & BANNER OVERVIEW

22" x 30" Typical Horizontal Banner

Paper Poster was designed to give you maximum flexibility as well as longevity. These Window Posters are produced on environmentally friendly paper materials and can and should be recycled after their effective lifecycle has been completed. This water resistant paper poster material has an excellent white point and gloss level. Good durability for indoor graphics.

### Window Posters

Banner material is a flexible PVC material with a highly tear-resistant polyester fabric embedded between two white layers of vinyl. The product is water-resistant and has a matte no-glare surface. Banners are 13 oz. and are hemmed & grommited. They are UV stable and have a 3 year outside durability.
