SIGNAGE OVERVIEW

Framed Real Estate Signs (FRES)

All of the items offered in the Couch and Philippi Commercial Real Estate Sign System are produced in accordance to the NAI corporate standards. This sign system was designed to give you maximum flexibility as well as longevity in the delivery of your Branding message. In addition, all of our products are produced on environmentally friendly recycled materials that can and should be recycled after their effective lifecycle has been completed.

OVERLAY RIDER & OVERVIEW

All of the items offered in the Couch and Philippi Commercial Real Estate Sign System are produced in accordance to the NAI corporate standards. This sign system was designed to give you maximum flexibility as well as longevity in the delivery of your Branding message. In addition all of our products are produced on environmentally friendly recycled materials that can and should be recycled after their effective life cycle has been completed.

Framed Real Estate Sign (FRES)

A metal sign wrapped to a wooden frame. Thermal Set inks, resist fading, cracking and peeling while providing Graffiti resistant surface.

Overlays & Riders

Made from the same materials and ink system as the FRES, Overlays are used to provide flexibility to the Sign System. Each Overlay easily attaches to the FRES with pre-existing fasteners that are built into each sign.

Overlays and Riders Available For All Signs.

Typical Status Overlay.

Property Status Overlays

Your FRES is pre-printed with a property status of "Available". Overlays are produced using the same materials as the FRES. They are printed on both sides; front side is "For Sale" the back side is "For Lease". This gives you one sign with three different property status options.

Typical Rider for additional Information.

Custom Information Riders

Additional information can also be attached above or below the FRES, using the same construction as a FRES, this element of the system can have vinyl copy applied and easily removed hundreds of times. This blank overlay is printed to match the corporate approved red. The application of vinyl copy will customize your sign with specific information about that property.

WINDOW POSTER & BANNER OVERVIEW

10680 Fern Ave. Stanton, CA. 90680
Tel 714.527.2261 Fax 714.827.2077

2' x 2' Typical Window Poster

Paper Poster was designed to give you maximum flexibility as well as longevity. These Window Posters are produced on environmentally friendly paper materials and can and should be recycled after their effective lifecycle has been completed. This water resistant paper poster material has an excellent white point and gloss level. Good durability for indoor graphics.

Window Posters

Banner material is a flexible PVC material with a highly tear-resistant polyester fabric embedded between two white layers of vinyl. The product is water-resistant and has a matte no-glare surface. Banners are 13 oz. and are hemmed & grommeted. They are UV stable and have a 3 year outside durability.
